Portfolio Site: <https://natdanai.vercel.app/>

Skills: C++, C# .NET, PHP, JavaScript, Lua, Java, Python, React, Next.js, Svelte.

A junior developer with 2 years of experience in frontend and backend developments who is passionate about working in any challenge opportunities. I spend every single day with coding and learning new programming languages and new technologies. I'm not afraid of any problems but I push my effort to solve them for being pleased with success and growing up with failure.

Experiences

FIVEM FREELANCE (2021- present)

Developer

- Developed game play by Lua and Javascript (typescript).
- Implemented user interface with Svelte, React and Next.js.
